

RAINSTAMP®

## STANDARD SPECIFICATIONS

### EXPANDED WIRE MESH SMALL HOLE

### LOCK IN FOR K-STYLE

For 5", 6", or 7" gutter.

**Use:**

Protect your rain gutters from clogging.

**Feature:**

Lock In is made from 0.0270 expanded galvanized steel that is powder-coated or 0.0320 copper for maximum durability. Lock In is available with medium holes, ideal for medium to heavy debris loads. Comes in 4 foot lengths and 5", 6", or 7" widths. It can be snapped into the front of the gutter for quick and easy removal, without disturbing the shingles, or fastened with screws to the front of the gutter and installed under the shingles. Available in black powder coated steel and copper.
